

PHILIP MORRIS COMPANIES INC.

INTER-OFFICE CORRESPONDENCE

120 PARK AVENUE, NEW YORK, N.Y. 10017

TO: R. William Murray
FROM: Mary Pottorff
SUBJECT: MEETING ON ETS - FEBRUARY 4, 1987

DATE: February 4, 1987

T. S. OSDENE

FEB 6 1987

Participants: Andrew Falkiewicz
Donald Harris
R. William Murray
Tom Osdene
Mary Pottorff

ACTION ITEMS:

SCIENTISTS

- By the end of March, 1987, Tom Osdene and Helmut Gaisch are to identify three scientists from each of the following countries:

West Germany
Italy
Switzerland
United Kingdom
Australia
Hong Kong
Japan
Spain
Brazil

PMI will determine the manner in which the scientists are contacted in each country.

- Short term

Between April and June the scientists will be asked to review and comment on ETS literature.

By June, have one or two scientists in each country who will develop, strengthen and publicly articulate scientific positions that expose the inadequacies of anti-smoking arguments on the ETS issue.

- Long term

Some of these scientists may be encouraged to conduct independent ETS research.

- Andrew Falkiewicz to alert Regions to provide necessary funds in their revised forecasts.
