

BIOGRAPHICAL SKETCH

Name: Kloog Yoel
 Birthdate: June 27, 1948

A. ACADEMIC BACKGROUND

| <u>From-to</u> | <u>Institution</u> | <u>Degree</u> | <u>Area of specialization</u> |
|----------------|--|---------------|-------------------------------|
| 1969-1972 | Tel Aviv University, Israel | B.Sc. | Biology |
| 1972-1974 | Tel Aviv University, Israel | M.Sc. | Biochemistry |
| 1974-1979 | Tel Aviv University, Israel | Ph.D. | Neurochemistry |
| 1979-1982 | National Institute of Mental Health, Bethesda, MD, USA | Post Doc. | Biochemical Pharmacology |

Major research interest

Hormones, growth factors and neurotransmitter receptors, signal transduction mechanisms, post-translational modifications of proteins, regulation of cell growth and differentiation.

Keywords: Biochemistry, neurochemistry, receptors, signal transduction, differentiation, post-translational modifications.

B. PREVIOUS EMPLOYMENT

| <u>From-to</u> | <u>Institution</u> | <u>Title</u> | <u>Research area</u> |
|----------------|--|---------------------------|---|
| 1995-present | Tel Aviv University, Israel | Professor of Biochemistry | Neurochemistry, biochemistry, Biochemical pharmacology, Cell biology. |
| 1988-1994 | Tel Aviv University, Israel | Associate Professor | Neurochemistry, biochemistry, Biochemical pharmacology, Cell biology. |
| 1989-1991 | National Institute of Mental Health, Bethesda, MA, USA | Visiting Scientist | Molecular and cell biology |
| 1984-1988 | Tel Aviv University, Israel | Senior Lecturer | Neurochemistry, biochemistry, Biochemical pharmacology |
| 1982-1984 | Tel Aviv University, Israel | Lecturer | Neurochemistry, biochemistry, Biochemical Pharmacology |
