Re: Our File 582-808  
PM 626

Dear Les:

Attached hereto is a copy of Paper No. 4 which we have just received from the Patent Office in connection with the above-identified application. As you could see, prosecution on the merits is closed and all of the claims have been found allowable with an Examiner's Amendment to follow the present action.

It is my understanding that we should file a divisional application directed to the non-elected invention. Would you please confirm this.

Sincerely,

  
Howard K. Kothe
