OPERATIONS ADMINISTRATION

September 8, 1978

Dr. Philip X. Masciantonio  
Director, Environmental Control  
United States Steel Corporation  
600 Grant Street  
Pittsburgh, Pennsylvania 15230

Dear Phil:

Thank you very much for your note of August 25th.

I will be happy to discuss some of our problems in the environmental control area with you. I would say that our expertise is primarily in the analysis of minute quantities of pollutants. Our Industry is essentially a low contributor to environmental pollution; however, we are heavily involved in water purification and the scrubbing of exhaust gases from coal fired boilers. Our experts in this area are located in Richmond and that would probably be the best place to meet at your convenience.

Best personal regards,

FER:MP
