Dr. William Dock  
451 Clarkson Avenue  
Brooklyn 3, New York

Dear Doctor Dock:

Thank you again for having written to me about the ballistograph and the effects of smoking various cigarettes.

I feel strongly that your experience ought to be put on record. Even if you do not want to publish it as a paper, could you write me a letter for publication in Postgraduate Medicine. You do not need to name the brands if you do not wish to do so but simply mention a filter-tipped cigarette and the other types of products that were used. If you can do this without too much trouble, I will appreciate it greatly.

With best wishes,

Sincerely yours,

*Sydney Morris Fishbein*
